Module Recap: SageMaker Pipelines

Instructor

Kartik Nighania

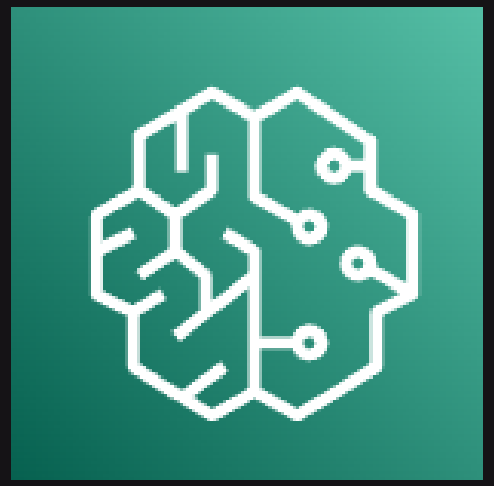
MLOps Engineer at Typewise

Ex-Head of Engineering - YC-backed startup

Certified AWS Cloud and Kubernetes Engineer

Open source contributor

Module Recap



SageMaker Deep Dive

- SageMaker domains
- Training and hardware requirements of SageMaker

SageMaker Studio

- SageMaker development environment
- SageMaker experiments

LLM Fine-tuning

- State of LLMs
- Parameter efficient vs full fine-tuning
- LoRA training method

Hands on session on SageMaker Training

SageMaker Pipelines

- Basics of SageMaker pipelines
- Pipeline steps
- Event based systems

Hands on session on SageMaker pipelines
